

**Introduction to Distributed Learning: First Steps Toward
Putting Some or All of Your Course Online**

**Brown Bag Teaching Seminar
September 27, 2007**

Dina Kurzweil (dkurzweil@usuhs.mil)
Beth Marcellas (kmarcellas@usuhs.mil)

Aligning Activities with Objectives

Activity in class	Sample Objective	Online Implementation
Imparting facts	Name the fundamental principles and professional responsibilities listed in the charter of medical professionalism	Online content
Discussion /Debate	Explain the social forces encouraging and discouraging specialty certification	Discussion boards, online group activities, synchronous chats
Problem Solving	Begin to develop and foster skills in case problem solving	Knowledge checks, self assessments, written assignments, discussion boards, online group activities, simulations
Critical Thinking: writing, discussions	Use small group conferences to develop the skill of differential diagnosis (comparing disease entities that may present with similar clinical and tissue or organ manifestations).	Written assignments, discussion boards, online group activities, online journals, assessments
Performance	Use information technology to manage information, access on-line medical information,	Ongoing assessments and evaluations
