

# LCME Student Update #2 Learning Environment & Facilities

## Opportunities to Participate in Research

While there is no requirement for student research, the "Molecules to Military Medicine" curriculum offers expanded opportunities in the post-clerkship period

- Self-Initiated Projects
- Education/Simulation
- Global/Public Health/Military
- Clinical

- CAPSTONE
- Laboratory-based

The Associate Dean for Student Affairs (COL Lisa Moores) is the contact person for any student with a concern relating to student mistreatment

## Mistreatment Policy

- Formalized in SOM-DPM-016-2014
- Policy is outlined in Medical Student Handbook

## Opportunities to participate in service learning

- Social/Service
  - Religious
  - Ethnic
  - Warrior Outreach
- Specialty Interest
  - Clinical Specialties
  - Ex: Integrative Medicine

Opportunities at USU include two main groups

A school must have effective policies and practices in place to achieve diversity in its classes

## Student Diversity

- Prior Military
- Educational
- Gender
- Ethnic

## Administration & Faculty Diversity

Significant recent steps have been implemented to address issue of diversity in faculty and staff

- Recruitment
- Sustainment
- Curriculum
- Created Diversity Working Group
- Hired Chief Diversity Officer COL Jeffrey Hutchinson

## Participation of Students on key medical school committees

Students are included in several key SOM committees such as:

- Executive Curriculum Committee
- Student Promotion Committee
- Admissions Committee
